

Annual Maintenance Checklist – Carrera GT (USA & Canadian Vehicles Only)

Required Maintenance and Lubrication Service

Annual Maintenance (Labor Operation 03 50 00 ..) See Technical Manual
For vehicles with annual mileage of less than 10,000 miles (15,000 km).

- Diagnosis system: Read fault memory
- Engine: Check oil level
- Check drive belt
- Power steering: Check fluid level
- Vehicle underside and engine compartment: Visual inspection for leaks (oils and fluids) and abrasion (lines and hoses);
Underbody panels: visual inspection for completeness, installation and damage
- Coolant hoses: Check condition
Radiators and air intakes: Visual inspection for external debris and blockage
Coolant: Check level and antifreeze
- Air filter element and housing: Visual inspection for contamination
- Wheel securing device: Check function
Wheel nuts: Visual inspection for wear
- Brake hoses and lines: Visual inspection for damage, routing and corrosion
Check brake fluid level
- Steering gear: Visual inspection of the dust boots for damage
Tie rod ends: Check play and dust boots
- Axle joints: Check play; visual inspection of the dust boots for damage
- Drive shafts: Visual inspection of the dust boots for leaks and damage
- Magnesium wheels: Visual inspection for corrosion or damage
- Tires: Check condition and tire pressure
- Spoiler drive: Check fluid level, function and end position
- Vehicle lighting: Check function
All headlights: Check alignment
- Horn: Check function
- Seat belts: Check function and condition
- Electrical equipment, warning and indicator lights: Check function

Inspection Performed - Technician Signature: _____

Road Test Check

- Remote control, seats, foot and parking brake (also actuation travel), engine, clutch, steering, transmission, rear spoiler, heating, air-conditioning system and instruments: Check function
- Oils, fluids: Visual inspection for leaks

Road Test Performed - Technician Signature: _____

Scheduled Maintenance Points

The terms "inspect" and "check" include all associated work such as checking the condition, adjustments, readjustments, corrections and replenishment. They do not include the repair, replacement or overhaul of components or assemblies. The maintenance points are valid for all vehicle types of the model line in question.

The recommended service intervals and scope of work apply under normal driving conditions and do not take into account all optional equipment. Dusty areas require more frequent checking and possible replacement of the air filter elements. The radiators and cooling air inlets in the front should be checked and cleaned regularly if the car is driven on very dirty roads. Tire, clutch and brake wear as well as the condition of the engine oil are all largely dependent on driving habits, and operating conditions. You should perform maintenance on these items more frequently under such operating conditions. Proper care and maintenance will preserve the value of your Porsche and safeguard its functional capability.

Note: On vehicles with annual mileages of less than 10,000 miles (15,000 km), an annual maintenance must be performed once a year. For an annual mileage of more than 10,000 miles (15,000 km) it is recommended to perform the next scheduled minor or major maintenance, if the mileage for scheduled maintenance is not reached, minor maintenance must be performed no later than after 2, 6, 10.... years.
